

Tools • Fittings • Accessories

August 31, 2021

Dear Valued Customer,

The past couple of seasons have been an exciting time to be in business. We genuinely appreciate the loyalty you have put into Dawn Industries during these times. For us to continue supplying you with the highest quality products we must have a price increase.

The price increase covers everything from raw material, plastic resins, carboard, labor and transportation. Currently raw material cost increases, delays in deliveries and transportation costs are a few of the main drivers for this price increase.

Beginning October 1, 2021 Dawn Industries will be applying a 5% price increase on all our offerings. Currently Team Dawn is working hard to ensure we maintain an adequate inventory supply. We thank you for your understanding and continued loyalty.

Best regards,
