March 25, 2022

Dear Valued Customer,

We genuinely appreciate the loyalty you have put into Dawn Industries during these times. For us to continue supplying you with the highest quality products and excellent customer service we must have a price increase.

The price increase covers everything from raw material (plastic resins & steel), packaging, transportation, and labor. Currently raw material cost increases, labor and transportation are a few of the main drivers for this price increase.

Beginning May 1, 2022, Dawn Industries will be applying a 4%-7% price increase on all our offerings. Currently Team Dawn is working hard to ensure we maintain an adequate inventory supply. We thank you for your understanding and continued loyalty.

Best regards,

Gerri Murray
Director of Sales
Dawn Industries, Inc.
