

KwikPuller™

Professional Quality

A patented pipe puller designed for an efficient method of sealing pipes that instantly bends as it enters the ground. Just slip the pipe into the KwikPuller™—no extra sealing steps required.

Features

- Quick-start design begins working in seconds
- Seals pipe as it bends, eliminating the need for tape sealing
- Saves labor, fuel, and machine time
- Dual-pipe puller option for simultaneous pipe installations
- Compatible with Poly, PVC, conduit, gas pipe, and control wire
- Patented (US Patent #7654774)
